

Kymera Therapeutics Announces Pricing of \$225 Million Public Offering

August 19, 2024

WATERTOWN, Mass., Aug. 19, 2024 (GLOBE NEWSWIRE) -- Kymera Therapeutics, Inc. (NASDAQ: KYMR), a clinical-stage biopharmaceutical company advancing a new class of small molecule medicines using targeted protein degradation (TPD), today announced the pricing of its underwritten public offering of \$225 million of shares of its common stock and, in lieu of common stock to certain investors, pre-funded warrants to purchase shares of its common stock. Kymera is selling 2,002,313 shares of common stock and, in lieu of common stock to certain investors, pre-funded warrants to purchase 3,519,159 shares of common stock in the offering. The shares of common stock are being sold at a public offering price of \$40.75 per share and the pre-funded warrants are being sold at a public offering price of \$40.7499 per pre-funded warrant, which represents the per share public offering price of each share of common stock, less the \$0.0001 per share exercise price for each pre-funded warrant. In addition, Kymera has granted the underwriters a 30-day option to purchase up to an additional 828,220 shares of its common stock at the public offering price per share, less underwriting discounts and commissions. The gross proceeds to Kymera from the offering are expected to be approximately \$225 million, before deducting underwriting discounts and commissions and estimated offering expenses payable by Kymera, excluding the exercise of any pre-funded warrants and assuming no exercise of the underwriters' option to purchase additional shares. All of the securities being sold in this offering are being offered by Kymera. The offering is expected to close on August 21, 2024, subject to the satisfaction of customary closing conditions.

Kymera intends to use the net proceeds from the offering to continue to advance its pipeline of preclinical and clinical degrader programs that are designed to address large patient populations with significant need and clear commercial opportunity, and for working capital and other general corporate purposes. Kymera may also use a portion of the net proceeds to in-license, acquire or invest in complementary businesses or technologies to continue to build its pipeline, research and development capabilities and its intellectual property position.

Morgan Stanley, J.P. Morgan, TD Cowen and Stifel are acting as joint book-running managers for the offering.

The securities described above are being offered pursuant to an automatically effective shelf registration statement on Form S-3 (No. 333-259955) that was filed with the U.S. Securities and Exchange Commission (the "SEC") on October 1, 2021. This offering is being made only by means of a prospectus supplement and an accompanying prospectus that form a part of the registration statement.

A final prospectus supplement related to and describing the terms of the offering will be filed with the SEC and will be available on the SEC's website located at www.sec.gov. About Kymera Therapeutics

Kymera is a clinical-stage biotechnology company pioneering the field of targeted protein degradation (TPD) to develop medicines that address critical health problems and have the potential to dramatically improve patients' lives. Kymera is deploying TPD to address disease targets and pathways inaccessible with conventional therapeutics. Having advanced the first degrader into the clinic for immunological diseases, Kymera is focused on delivering oral small molecule degraders to provide a new generation of convenient, highly effective therapies for patients with these conditions. Kymera is also progressing degrader oncology programs that target undrugged or poorly drugged proteins to create new ways to fight cancer. Founded in 2016, Kymera has been recognized as one of Boston's top workplaces for the past several years.
