

Kymera Therapeutics Announces Closing of Upsized \$225 Million Public Offering and Full Exercise of Underwriters' Option to Purchase Additional Shares

August 21, 2024

WATERTOWN, Mass., Aug. 21, 2024 (GLOBE NEWSWIRE) -- Kymera Therapeutics, Inc. (NASDAQ: KYMR), a clinical-stage biopharmaceutical company advancing a new class of small molecule medicines using targeted protein degradation (TPD), today announced the closing of its upsized underwritten public offering of \$225 million of shares of its common stock and, in lieu of common stock to certain investors, pre-funded warrants to purchase shares of its common stock. Kymera sold and issued 2,830,533 shares of its common stock, which includes 828,220 shares sold and issued upon the full exercise by the underwriters of their option to purchase additional shares of common stock and, in lieu of common stock to certain investors, pre-funded warrants to purchase 3,519,159 shares of its common stock in the offering. The shares of common stock were sold at a public offering price of \$40.75 per share and the pre-funded warrants were sold at a public offering price of \$40.7499 per pre-funded warrant, which represents the per share public offering price of each share of common stock, less the \$0.0001 per share exercise price for each pre-funded warrant. The gross proceeds to Kymera from the offering were approximately \$258.75 million, before deducting underwriting discounts and commissions and estimated offering expenses payable by Kymera.

Morgan Stanley, J.P. Morgan, TD Cowen and Stifel acted as joint book-running managers for the offering.

The securities described above were offered pursuant to an automatically effective shelf registration statement on Form S-3 that was filed with the U.S. Securities and Exchange Commission (SEC) on October 1, 2021. The offering was made only by means of a prospectus supplement and an accompanying prospectus that form a part of the registration statement. Copies of the final prospectus supplement related to and describing the terms of the offering was filed with the SEC and is available on the SEC's website located at www.sec.gov. About Kymera Therapeutics

Kymera Therapeutics (Nasdaq: KYMR) is a clinical-stage biotechnology company pioneering the field of targeted protein degradation (TPD) to develop medicines that address critical health problems and have the potential to dramatically improve patients' lives. Kymera is deploying TPD to address disease targets and pathways inaccessible with conventional therapeutics. Having advanced the first degrader into the clinic for immunological diseases, Kymera is focused on delivering oral small molecule degraders to provide a new generation of convenient, highly effective therapies for patients with these conditions. Kymera is also progressing degrader oncology programs that target undrugged or poorly drugged proteins to create new ways to fight cancer. Founded in 2016, Kymera has been recognized as one of Boston's top workplaces for the past several years.
