

## Kymera Therapeutics Strengthens Leadership Team with the Appointment of Vijay Sabesan as Senior Vice President, Technical Operations

December 6, 2021

WATERTOWN, Mass., Dec. 06, 2021 (GLOBE NEWSWIRE) -- Kymera Therapeutics, Inc. (NASDAQ: KYMR), a clinical-stage biopharmaceutical company advancing targeted protein degradation to deliver novel small molecule protein degrader medicines, today announced the appointment of Vijay Sabesan as Senior Vice President, Technical Operations.

"Vijay comes to Kymera with over 25 years of experience in pharma and biotech, contributing to multiple drug development programs through clinical stages and commercial approval," said Nello Mainolfi, PhD, Co-Founder, President and CEO, Kymera Therapeutics. "He has a demonstrated history of building and growing high-performing teams and developing leaders within the organization, which will be vital for Kymera as we advance our pipeline into the clinic and beyond."

"I'm honored to join Kymera's highly talented team that aims to transform treatment paradigms using targeted protein degradation," said Vijay Sabesan as Senior Vice President, Technical Operations, Kymera Therapeutics. "With three clinical stage programs this year and multiple programs to follow, I'm excited to contribute towards evolving Kymera into a fully integrated global biotech company."

### Vijay Sabesan, Senior Vice President, Technical Operations

Vijay has extensive experience in process and pharmaceutical development, regulatory interactions, and manufacturing and has led CMC and Quality efforts towards commercial approval of VIBATIV® and YUPELRI®, and partnership deals with several large pharma companies. Prior to joining Kymera, he was Senior Vice President, Technical Operations at Theravance Biopharma where he was responsible for leading the process R&D, pharmaceutical development, analytical development, supply chain management and CMC project management functions. Vijay holds a bachelor's degree in Chemical Engineering from the Indian Institute of Technology, Madras, and a Master of Science in Chemical Engineering from Rutgers, The State University of New Jersey.

### About Kymera Therapeutics

Kymera Therapeutics (Nasdaq: KYMR) is a clinical-stage biopharmaceutical company founded with the mission to discover, develop, and commercialize transformative therapies while leading the evolution of targeted protein degradation, a transformative new approach to address previously intractable disease targets. Kymera's Pegasus™ platform enables the discovery of novel small molecule degraders designed to harness the body's natural protein recycling machinery to degrade disease-causing proteins, with a focus on undrugged nodes in validated pathways currently inaccessible with conventional therapeutics. Kymera's initial programs are IRAK4, IRAK1MiD, and STAT3, each of which addresses high impact targets within the IL-1R/TLR or JAK/STAT pathways, providing the opportunity to treat a broad range of immune-inflammatory diseases, hematologic malignancies, and solid tumors. Kymera's goal is to be a global, fully integrated biopharmaceutical company at the forefront of this new class of protein degrader medicines, with a pipeline of novel degrader medicines targeting disease-causing proteins that were previously intractable. Founded in 2016, Kymera is headquartered in Watertown, Mass. Kymera has been named a "Fierce 15" biotechnology company by FierceBiotech and has been recognized by the Boston Business Journal as one of Boston's "Best Places to Work."
